---

## EDUCATION

---

**B.Sc. in Software Engineering**  
**Mountain Top University, Ogun State**  
**Expected Graduation Date: 2026**

---

## WORK EXPERIENCE

---

**Front-End Development Intern**  
**Olam Company | March 2025 – Present**

- Assisted in developing and optimizing web applications for better user experience.
- Worked on UI/UX improvements to enhance design and responsiveness.
- Collaborated with developers and designers to implement new features.
- Gained hands-on experience in front-end technologies, API integration, and version control.

---

## AWARDS AND ACKNOWLEDGEMENTS

- 
- 3rd Place, University Hackathon – Mountain Top University (2024)

Developed an innovative e-commerce application with a team during a university-wide competition.

- Completed Certifications in C, HTML, CSS, and Python Programming , Full Stack Web Development

with React JS , Angular and NodeJS Certification , Web Development Bootcamp Certification

Demonstrated proficiency in multiple programming languages and web development technologies.

---

## PROJECT

---

### 1. Cloth ordering Website *Technologies Used: HTML, CSS, JavaScript, GIT , GIT Hub.*

- Developed a sleek and responsive clothing ordering website that enhances the online shopping experience.
- Designed a modern , user-friendly UI for effortless product discovery .
- Implemented a responsive layout for mobile and desktop users.
- Implemented smooth navigation and interactive design for enhanced user experience.

### 2. University Hackathon Project – E-commerce Application (3rd Place) *Technologies Used: Python, JavaScript, HTML, CSS*

- Built a functional e-commerce website during a university hackathon.
- Collaborated with a team to design an intuitive user interface.
- Implemented key front-end features using modern web technologies.

### 3. Phone website *Technologies Used: HTML, CSS.*

- Designed a phone website to display different types of phones for purchases.
- Utilized SQLite for data storage and retrieval.

### 4. Food Ordering system *Technologies Used: HTML, CSS , JavaScript, API integration , GIT GIT Hub,*

- Developed a user-friendly food ordering system that streamlines the order process for restaurants and customers .
- Integrated real-time order tracking and dynamic menu update.
- Ensured cross-browser compatibility and mobile responsiveness.
- Added API integration to manage orders and transactions efficiently.
- Optimized performance for fast loading times and smooth interaction.

---

## CERTIFICATIONS

---

- **HTML Programming Language Certification**
  - **CSS Programming Language Certification**
  - **Python Programming Language Certification**
  - **Full Stack Web Development with React JS , Angular and NodeJS Certification**
  - **Web Development Bootcamp Certification**
- 

---

## SKILLS

---

### Technical Skills:

- **Front - End :** HTML, CSS, JavaScript , React , Angular.
  - **API Integration :** REST APIs , Fetch API , Axios .
  - **Software Development :** Full-cycle web development , Agile methodologies , proble-solving .
  - **Database Management :** Firebase ,MongoDB , MySQL.
  - **Version Control:** Git , Github / Gitlab
- 

---

## PROFESSIONAL SUMMARY

---

Results-driven Front-End Developer with a strong foundation in UI/UX design, responsive web development, and software development. Skilled in building visually appealing, high-performance web applications with modern technologies like React, Tailwind CSS, and API integration. Experienced in database management, version control (Git/GitHub), and performance optimization to enhance user experience.

Passionate about creating seamless digital experiences, problem-solving, and continuously improving web applications. Proven ability to work collaboratively in team environments, demonstrated through participation in a school hackathon and the development of a food ordering system and a clothing ordering website.

Always eager to learn new technologies, optimize code efficiency, and contribute to impactful projects.
