Profile

I am a front-End Developer with a passion for building high-performance, visually appealing web applications. Skilled in React, JavaScript, Tailwind CSS, and API integration, with a track record of optimizing UI/UX designs for improved user engagement. Experienced in database management, version control (Git/GitHub), and performance optimization. Successfully developed multiple projects, including a food ordering system and an ecommerce platform, demonstrating problem-solving and team collaboration. Always eager to learn new technologies and enhance web application performance.

Education

09/2022 – 07/2026
Ogun State, Nigeria

BSc Software Engineering
Mountain Top University

- **Data Structures & Algorithms** – Essential for writing efficient code and solving complex problems in interviews and real-world applications.
- **Object-Oriented Programming (OOP)** – Covers core principles like encapsulation, inheritance, and polymorphism, which are fundamental for software design.
- **Software Development Lifecycle (SDLC)** – Explores Agile, Scrum, Waterfall, and DevOps methodologies, ensuring an understanding of software project management.
- **Full-Stack Web Development** – Focuses on front-end (HTML, CSS, JavaScript, React) and back-end (Node.js, Django, Flask) development.
- **Mobile App Development** – Covers development using Swift (iOS) and Kotlin (Android), or cross-platform tools like Flutter and React Native.

Skills

UI/UX Design

Figma, Adobe XD, Wireframing, Prototyping, Web Accessibility, User-Centered Design.

Performance Optimization

Lazy loading, Code splitting, Caching, Progressive Web Apps (PWAs).

Software Development

Full-cycle web development, Agile methodologies, API integration.

Version Control problem-solving, Test-Driven Development (TDD). Git, GitHub/GitLab, Bitbucket.

DevOps & CI/CD

GitHub Actions, Netlify, Vercel, Docker, Continuous Deployment.

API Integration

REST APIs, GraphQL, Fetch API, Axios.

• Front-End Development

HTML, CSS, JavaScript, React, Angular, Next.js

Database Management

Firebase, MongoDB, MySQL, PostgreSQL.

IT Support & System Administration

SAP Software installation , Windows OS installation & configuration.

Cloud Platforms

- AWS, Azure, Google Cloud.

Languages

- • French

English

Professional Experience

03/2025 – present	Front-End Development Intern
Port Harcourt, Nigeria	<i>Olam Company</i>
	Developed and optimized interactive web applications, improving user engagement and load times. • Implemented UI/UX enhancements that increased mobile responsiveness and accessibility. • Integrated APIs and optimized front-end performance, reducing page load times by 30%. • Collaborated with designers and developers to implement modern UI components using React and JavaScript.

Certifications

- HTML Programming Language Certification
- CSS Programming Language Certification
- Python Programming Language Certification
- Full Stack Web Development with React JS, Angular, and NodeJS Certification
- Modern React With Redux Certification
- React Developer Certification
- Vue.js Certification
- Interaction design Certification
- Web Development Bootcamp Certification
- Advanced JavaScript & Performance Optimization Certification
- AWS Cloud Practitioner Certification
- Responsive Web Design Certification
- Google UX Design Professional Certificate
- Git Hub Action & Git Certification
- Postman API Fundamentals Certification

Projects

Clothing Ordering Website

Technologies Used: HTML, CSS, JavaScript, Git, GitHub

- Designed a modern, user-friendly UI for effortless product discovery.
- Implemented a responsive layout for mobile and desktop users. • Developed smooth navigation and interactive design for enhanced user experience.

Food Ordering System

Technologies Used: HTML, CSS, JavaScript, API Integration, Git, GitHub

- Designed and developed a fully functional food ordering system, reducing order processing time by 40%.
- Integrated real-time order tracking and dynamic menu updates, enhancing customer experience.
- Optimized API integrations for seamless transactions and improved app responsiveness.
- Ensured 100% mobile responsiveness and cross-browser compatibility using modern front-end frameworks.

University Hackathon E-Commerce Project

Technologies Used: Python, JavaScript, HTML, CSS

- Built a functional e-commerce website during a university hackathon.
- Designed an intuitive user interface to enhance user interaction.
- Implemented key front-end features using modern web technologies.

Car Vendor Website

Technologies Used: HTML, CSS, JavaScript, Git, GitHub , Google Maps API , Vercel , Netlify

- Designed a modern, user-friendly UI for effortless product discovery.
- A visually stunning and fully responsive car showcase website that features high-quality animations , interactive galleries , and a smooth user experience for exploring vehicle specifications .
- Also implemented Google Map API , for live location .
- Implemented a responsive layout for mobile and desktop users. • Developed smooth navigation and interactive design for enhanced user experience.

AI Powered career Guidance Platform (In Progress)

Technologies Used: Next.js , React Hooks(UseState, useEffect) , Axios , OpenAI API , CSS , .env.local , Vercel , Netlify

- Designed a modern, user-friendly UI for career guidance.
- Used Axios to fetch AI-generated responses .
- The API key is stored in .env.local .

Summary

I am a highly skilled Front-End Developer with expertise in building high-performance, responsive web applications. Proficient in React, JavaScript, Tailwind CSS, and API integration, with a proven track record of improving UI/UX designs and optimizing performance. Strong experience in full-cycle web development, including Agile methodologies, accessibility best practices, and cross-browser compatibility. Demonstrated ability to reduce load times by 30% and improve user engagement through intuitive design. Experienced in CI/CD, automated testing, and cloud-based deployment. Passionate about problem-solving, collaborating in team environments, and driving innovation in web development.
